# Curb<sup>®</sup>

Curb<sup>®</sup> can help you achieve your weight loss goals, not by dieting but by improving your eating habits.

## How does Curb<sup>®</sup> work?

- ✓ By reducing your hunger hormones and increasing your satiety hormones.
- ✓ Slowing down your intestinal transit to keep you feeling fuller for longer.
- ✓ Leading you to have less cravings and snack less, not over-eating at meal times resulting in healthy long term weight loss.

"Curb changed my life and I've now lost weight that I have been trying to shift for years. My only regret is not finding this product sooner!"
